

I'm not robot!

The MeshGraft II instrument consists of a ratchet handle, continuous feed roller, a cutting roller, and a guidance plateau. The guidance plateau helps ensure proper alignment of the Dermacarrier™ II Skin Graft Carriers and cutting ollers. The ratchet handle facilitates proper advancement of the carrier. The expansion ratios are determined by four dermacarriers- 1.5:1, 3:1, 6:1 and 9:1. When it comes to skin grafting instruments, Zimmer Biomet, with over 50 years of experience, not only gives you the power of precision, but also the power of choice. You choose the power source that works best for you with Zimmer Biomet's Air or Electric Dermatome surgical grafting instruments. Both deliver a smooth cutting action that produce clean, uniform grafts. 5,000 - 6,000 cycles/minute high-speed cutting action Air powered model includes nitrogen hose that exhausts 10 ft. away from surgical site Electric-powered model includes a power source with 4.3 amp capability Precise cut thicknesses up to .030 inch (0.76mm) in easily adjustable .002 inch (0.05mm) increments Blade plate widths range from one to four inches (2.5 to 10cm) in one-inch increments Exceptional maneuverability with less hand fatigue Safety lever to help prevent accidental activation Blades are pre-sterilized and don't require lubrication Air and Electric Dermatomes are available with an autoclave case which holds all components during processing Lubeless motor With Zimmer Biomet's Air and Electric Dermatomes you get accurate cuts time and time again. Both deliver smooth, high-speed cutting which allows for virtually effortless cutting. Cut thicknesses are easily selected and constantly maintained using a calibrated dial. Uniform graft widths are maintained with width plates that insert quickly and easily. Our precision cutting blades are packaged sterile and require no lubrication for ultimate convenience. Maneuverable and easy-to-use, Zimmer Biomet's Air and Electric Dermatomes feature slim hand pieces that are easy to hold and control with either hand. Their sleek,articulate design provides a natural fit to enhance accuracy and lower hand fatigue. Both instruments, which are quiet and nearly vibration-free, are activated using a handle-mounted switch. Because safety is always a concern, we have incorporated a safety lever to help prevent accidental activation during handling. The power of Zimmer Biomet's skin grafting instruments doesn't stop with performance. We've also made them simple to maintain for convenience and durability. It starts with a motor that requires no lubrication and blades that are easily inserted without damaging the cutting edge. Our skin grafting instruments are designed for easy, thorough cleaning. They can be sterilized by both pre- vacuum and gravity air displacement steam sterilization methods. If your instrument is ever in need of repair, Zimmer Biomet provides fast, effective service with loaner units available at no charge. The hand pieces and power supply include a one-year warranty. ¡Únete a Ucrania! ¡Ganemos juntos! Apoya a las Fuerzas Armadas de Ucrania: haz clic aquí. REGISTRARSE COMO COMPRADOR We repair and recalibrate non-working equipment. CLICK HERE for equipment repair form. We also offer trade-ins for excess equipment. Please contact us! Trials available. Zimmer is a registered trademark of that corporation.
